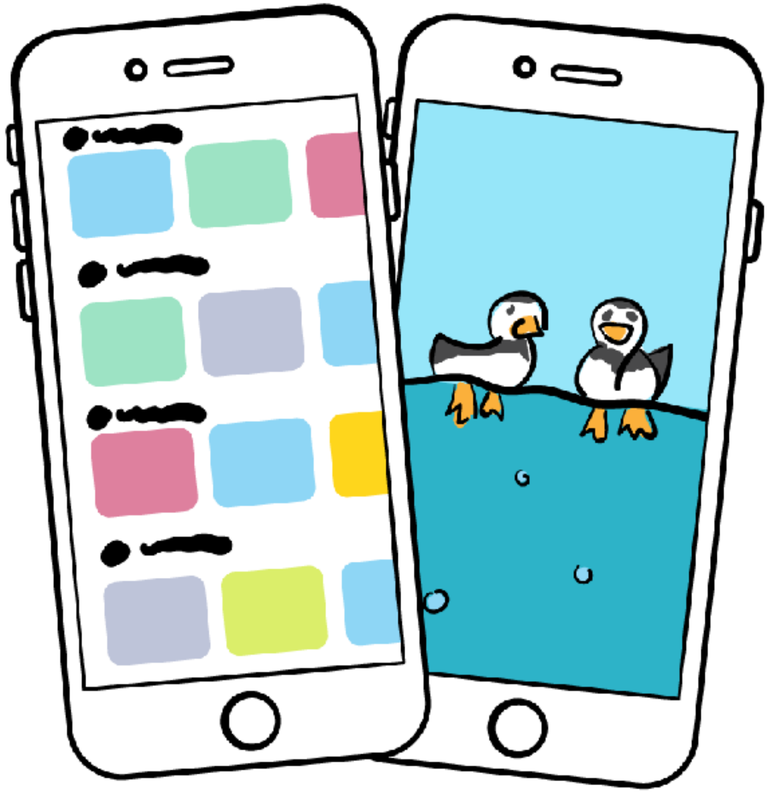
BEGINNING COLLECTION VIEWS

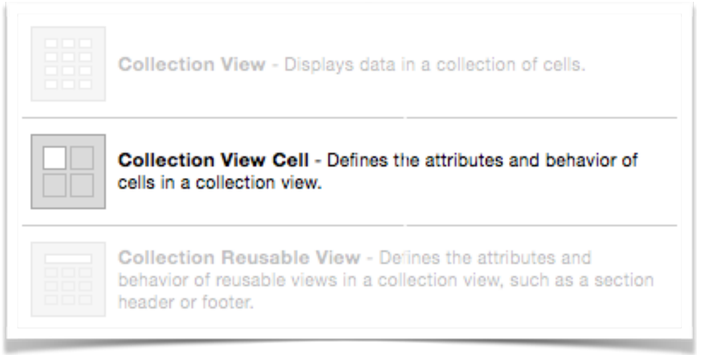


Part #3: Custom Cells

Carrier
9:05 AM

Collection View Cell

- UICollectionViewCell
- Represents a single data item
- Prototype cell paradigm
- Cell reuse strategy
- Automatic cell creation



UICollectionViewCell

- Consists of three primary subviews
  - Add your views to the contentView
- Override **`prepareForReuse()`** to reset properties and prepare subviews
- Selected and highlighted states
- No pre-configured styles like UITableViewCell
